

Solutions using Exterior Cement Boards

CPD

Overview

Building exteriors must be able to withstand extreme elements of weather and urban living, meaning the materials must be non-organic, robust and stable - all of this whilst also adhering to sustainable manufacturing and building methods.

This presentation outlines the key benefits of Knauf exterior walls and soffits in construction design.

This CPD will cover:

- Exterior walls (key benefits, key features)
- Soffits (key benefits, detailing)
- Working on site
- Design freedom
- Case studies

What we offer

- Morning, lunch or Evening CPDs to suit your practice.
- One of our experienced Project Specification Managers will deliver a CPD virtually.
- Duration - 45 minutes
